---

I was trying to make clear that the line for the loglogistic in Table 2 used CE, not CEL. Both metrics were used in Table 1.

"Brattin, Bill" ---01/19/2011 10:07:26 AM---Right. All of the values in Table 2 are based on CE (f/yrs/cc)

Right.

All of the values in Table 2 are based on CE (f/yrs/cc)

This looks very good! Thank you for putting this together on short notice.

I made one additional minor change. I added the following under Table 2 to specify the exposure metric used for the LogLogistic model.

For the 2004 only, >= 1972, LogLogistic model, the exposure metric is CE
